JavaScript

Curso de Debugging con Chrome
DevTools

Sebastian Sanchez

Frontend Developer

Villa Mercedes, San Luis, Argentina

Extracto

I've worked for 4 years in logistics and I'm looking for a change.

I'm studying every night to become a full stack developer. Over the years I have developed a mindset of doing whatever it takes to accomplish a task, which I consider to be a valuable asset in my set of skills.

I'm still studying, but willing to take a job on the field while continuing my studies.

Lang: english / spanish.
