dev.sebastian.sanchez@gmail.com

Villa Mercedes, San Luis, Argentina

I am passionate about technology. Although I lack direct professional experience in web development, my learning speed has grown exponentially as I face practical challenges.

On my personal page, you will find projects that demonstrate the skills I have acquired in this specialization process. I emphasize my ability to solve problems under pressure, communication skills, and experience in teamwork, skills that I perfected in my previous job.

WORK EXPERIENCE

Logistics Manager

Sanchez Agronegocios SA, January 2020 - December 2023

- Training shipping department staff in roles and responsibilities regarding global logistics strategies.
- Directing direct logistics operations for inbound and outbound activities, such as transportation or storage, safety performance, or logistics quality management.
- Conducting and reviewing environmental audits for logistics activities, such as storage, distribution, or transportation.
- Analyzing the financial impact of proposed logistics changes, such as routes, shipping modes, volumes or product mixes.
- Collaborating with other departments to integrate logistics with business systems or processes, such as customer sales, order management, accounting, or shipping.
